FIRST CHOICE IN TANNING

## COSMEDICO BEAUTY ALL YEAR ROUND

**INNOVATION** It all started in 1975 with an invention of our company that changed the world: the solarium. Since then, the Cosmedico brand has been promising all its users a beautiful tan and a positive appearance all year round. As an industry pioneer we set standards in the tanning lamp production Made in Germany.

**SCIENCE** Every Cosmedico lamp is the unrivaled result of engineering excellence and concentrated UV know-how. Over 40 years of professional experience along with our comprehensive knowledge of the effects of UV lamps, are key factors of the development of our outstanding lamps to guarantee the unique indulgence experience.

**RESPONSIBILITY** We are involved in national and international committees for the professionalization of the industry. Cosmedico products comply with all current regulations. They are safe and provide a high degree of reliability in application.

## COSMEDICO RUBINO SUN & CARE COLLECTION

Tanning with RUBINO beauty and tanning lamps along with the accessories from the RUBINO Sun & Care Collection stands for clever system care. Everything is matched, from the lamp to the after tan skin care. Inspire your customers with this holistic tanning experience!

Item 31762

### Anti-aging Formula

Impressive regenerative effect due to a unique combination of selective anti-aging agents. Supports cell renewal and refines the skin relief. The skin surface appears even and supple.

### Red exhilarating pearls

Red exhilarating pearls for a visual and tactile experience. The pearls enclose precious substances conjuring on contact with the skin. A rich fluid that absorbs quickly and provides an intense revitalization of the skin after sunbathing with Cosmedico RUBINO lamps.

The RUBINO SUN & CARE Body Lotion intensively nourishes the skin after the tanning session and supports the effect of Cosmedico RUBINO beauty and tanning lamps. No parabens, non-greasy texture. Absorbs quickly into the skin and envelops with a pleasantly subtle scent. Suitable for sensitive skin. Made in Germany to the highest quality standards.

### Antioxidants and Vitamin E

Rich anti-oxidant combination helps improve elasticity, activates the body's own ability to boost collagen production and the rejuvenation of the skin. Vitamin E forms a stable protective shield against the oxidative stress of the skin during the tanning session and improves the oxygenation of the dermal tissue.

### Moisture and skin protection

The lipid complex, which is perfectly adapted to the application after the sunbathing with RUBINO, moisturizes and strengthens the natural skin barrier. Hyaluronic acid provides the skin with intense moisture and effectively triggers the skin's own hydration. The lotion provides relief from tautness, smoothes fine lines and wrinkles. It leaves the skin well nourished with a healthy, fresh, smooth and rejuvenated look.

## COSMEDICO RUBINO SUN & CARE BODY LOTION

## COSMEDICO RUBINO SALON EQUIPMENT

### FOR TANNING SALON AND TANNING BED

With the RUBINO salon equipment and marketing material you can draw attention to the tanning with RUBINO in the shop window, in the foyer and on the reception desk.
