robino

Soft skin with a beautiful tan.

Experience the
WONDERFUL
difference!

TANNING IN A NEW DIMENSION!

The RUBINO not only conjures a natural and long-lasting tan, but also a fantastically smooth and velvety soft skin.

HOW IS SOMETHING SO WONDERFUL POSSIBLE?

The RUBINO has an **extra red light component** in addition to the UV components usual in tanning lamps. This red light component activates skin metabolism and oxygenation. As a result, the tanning process is experienced as particularly gentle and soothing. The skin looks fresh and naturally tanned after use and feels fantastically smooth and velvety soft.
